				BBC
Quan	Item	Description		
		Decatur Library - R2 Price is for parts from the list provided by Sandy McCandless, plus four (4) modules to monitor the new duct detectors, the addition of a horn/strobe where the existing fire bell is located and installation of these parts. Labor also includes running a ground wire from the breaker panel (20' away) so the surge suppressor will work correctly. We will be using existing wiring and conduit for this project. Parts and labor warranty for 1 year. BBC has a current Decatur license. The fire alarm panel is expandable. Problem with parts list: There are many other requirements for this system to meet current code, but the City's AHJ has the ability and jurisdiction to override these requirements. BBC will as part of the closeout documentation list all deviations of the code so that future improvements may be implemented as desired. There is no sales tax included in this price as it is assumed the Library does not pay sales tax. If sales tax needs to be applied at the Decatur rate of 9% please add \$161.37.
