Boater's Guide

TO A FUN & SAFE TIME ON LAKE LURE

Points of Interest & Detailed Lake Map Inside

ONE LAKE, ENDLESS POSSIBILITIES

Keep these few things in mind for a great time on the lake

When it comes to boating regulations, most people are familiar with the term, idle speed, also known as "No Wake." But you might be surprised to learn that it's one of the most often disregarded regulations on the lake. So, it's important to know exactly what idle speed and no-wake actually mean and why it's important to observe the posted signs. Idle speed is the slowest speed at which it is still possible for you to maintain steering without producing a substantial wake behind your boat. With that in mind, please remember that for the safety and protection of all boaters, surveillance cameras are in operation at various locations of the lake.

Please be sure to observe the posted No-Wake areas of the lake including:

- When you are in any of the lake's coves.
- Within 75-feet from shore. This is to protect life, land and property.
- Within 75-feet of other boats.
- Within 100-feet of a public safety boat while emergency lights are in use.
- No wake is also required at certain times during peak tourism seasons when boater traffic may be particularly heavy: from 7 pm to 7 am October through April and from 9 pm to 7 am from May through September.

Why does the Town have Boat Permit Fees?

In addition to enabling the town to manage lake demand, did you know that your purchase of an annual boat permit funds the management and preservation of this valuable resource? The Lake Operations Department manages on-water boater assistance and law enforcement. It oversees silt removal, fish stocking, water quality monitoring, buoy placement, storm debris cleanup and boater education.

Other things to Remember:

- Kids under 13 have to wear a life jacket while on board. If you're towing anyone behind your boat, they also have to wear a life jacket. And only two people may be towed at a time.
- Speaking of towing, please note that if you're in a rented boat or one supplied with your rental home, your permit does not allow any towing, skiing or tubing. For a great alternative, check out the local water skiing services on the lake.
- Due to heavier boat traffic in certain areas, no swimming is allowed from town-owned land or in the Washburn Marina Bay.
- Once your boat is on the move, everyone has to stay inside the railings.
- Help us take care of the lake for all to enjoy. Please don't litter or feed the geese and other waterfowl. Neither is good for the birds or the lake.
- The only time docking lights should be on is when docking your boat at night.
- You can drink beer and wine on your boat. If you want liquor please visit one of our local lakefront and lake view restaurants.
- As inviting as it may be, please don't trespass on private property, docks or boathouses.
- Whether you're a resident or a visitor, fishing is encouraged. Just remember that everyone over 16 needs a valid NC Fishing License.

Getting around on the lake

Comprising approximately 800-acres, Lake Lure is three miles north to south and three miles east to west from the bridge to Sunset Cove.

Although it's a small lake, there is certainly plenty to do. Enjoy boat rentals and water ski services, year-round fishing & fishing guide services and a number of lakefront or lake view restaurants and lodging providers.

Additional points of interest and services are available at the following locations

- A public beach & water park #6
- Lakeside park, picnic tables & walking path #3
- Seasonal boat tours, public boat launches, welcome center, full service marina & gas station #4
- Temporary boat docking & pedestrian access to the Lake Lure Flowering Bridge located between Washburn Marina and the public beach
