

The Regular Meeting of the Town Board was held in the Town Hall, January 12, 1965, 7:30 P.M.

All members were present,

J. Paul Wilson, Mayor  
W.E. Franks, Commissioner  
S.E. Nelson, Commissioner

The Mayor Presiding,

The Mayor brought to the attention of the Board the necessity of spreading stone on the driveway at the end of the building adjoining the Doctors Office. By preparing this Driveway for Patient parking, this will relieve the congested traffic problem in front of the building.

A motion was made and carried that the Driveway be prepared by spreading stone on it for extra parking space.

The Clerk was instructed to have Cal Wilson and the work crew prepare the parking space with stone; also, when the weather is warmer a ramp is to be built on to the Arcade for patients in wheel chairs to enter the Doctors Office. This to be built at the direction of Dr. Wm.H. Burch.

Mr. W.R. Hackett, Jr and J.V. Bell attended the meeting and discussed with the Town Board the possibility of placing directional signs on Highway I-26, toward Lake Lure. This item of business was tabled for discussion at a future meeting.

The Clerk was instructed to call Mr. Mallonee, Surveyor, and have his crew to survey Snug Harbor Circle road to determine the Town right-of way. The survey to be made as soon as possible.

No other business the meeting was adjourned.

Clerk

*Blanche S. Liles*

Mayor.

*J. Paul Wilson*
