

DISBROW PARK MASTER PLAN PUBLIC MEETING

The City of Rye Recreation Commission invites you to attend a public meeting on ***Thursday, May 11, 2017 at 7:00 P.M. at Damiano Recreation Center (281 Midland Avenue)*** to present information and hear your feedback on possible changes to the recreational and public works facilities at Disbrow Park.

Last year the City retained Stantec Consulting Services to prepare conceptual designs and cost estimates incorporating needed improvements at Disbrow Park. The intent of the study is to identify needs from all park users and potentially reorganize existing amenities to improve park experiences and better accommodate the City's Public Works Facilities.

The consultant has completed its preliminary analysis, but wants to hear from area neighbors, recreational user groups and other interested parties before drafting conceptual plans for public review.

Over the next few weeks there will be additional public meetings as well as public surveys and other information available for public comment. Please visit www.ryeny.gov for more information.

If you have any questions, please contact the City of Rye Recreation Department at 967-2535 or Planning Department at 967-7372.
