

NOTIFICATION OF HYDRANT FLUSHING

Distribution System Flushing – City of Rye

SUEZ Water Westchester crews will be flushing fire hydrants and blow offs in the City of Rye at various locations between the hours of 7:30am and 4pm.

A temporary slight discoloration of the water and a decrease in water pressure may be noted as a result of opening the hydrants. If you experience this discoloration of water, please run your cold water in a basement sink for 15-20 minutes. This should clear your problem. Please make sure during this flushing period that you check your cold water for discoloration. If the water is discolored, please flush your line as mentioned above before attempting to do any laundry.

Our workers will carry out this task between 7:30am and 4:00pm. Our workers have company identification cards for your security.

We apologize for any inconvenience this may cause.
