### **Permitting Requirements**

1. All window replacements must be permitted to verify that the minimum requirements for state and local energy code requirements are met.
2. All window replacements must include a statement or documentation indicating that the U-Factor of the proposed windows is .40 or lower and the SHGC is .25 or lower.

### **Inspection Requirements**

1. When the windows are installed, please leave the manufacturer's sticker on the window until you receive inspection approval.
2. Once the window installation is complete, please request an inspection per the information included in your permit. The inspector will need access to the inside of the house if the manufacturer stickers are not readable from the outside of the house.
3. Any window within twenty-four inch arc of either vertical edge of the door must be safety glass (tempered).
