Comments:

The FY 2014 CIP includes funding for the replacement of one (1) One Ton Dump Truck with plow and salt spreader (vehicle #134). The truck being replaced is an eleven (11) year old truck with mileage in excess of 43,000 miles. This truck is used by Public Works personnel for snow operations during the winter and street maintenance activities during the summer. The drivetrain components of this vehicle are worn due to years of street maintenance activities. Severe corrosion of the under body components from snow plowing and salting activities has also occurred, bringing this vehicle to the end of its useful life.

The retired vehicle will be sold at the Northwest Municipal Conference Auction. The Village has purchased vehicles from Currie Motors in the past and is satisfied with their vehicles.
