Comments:

The FY 2014 CIP includes funding for the replacement of one (1) pick-up truck with a service body. The truck being replaced is a nine (9) year old vehicle with mileage in excess of 52,000 miles. The truck is used by the Building Maintenance Division to travel to various Village-owned buildings, and carries tools and materials necessary for maintenance and repair activities. The truck exhibits severe rust and corrosion on the body and the undercarriage and has reached the end of its useful life. The retired vehicle will be sold at the Northwest Municipal Conference Auction. The new truck will be equipped with a service body appropriate for building maintenance use. The Village has purchased vehicles from Currie Motors in the past and has been satisfied with their vehicles.
