Comments:

The FY 2016 CIP includes funding for the replacement of one (1) One Sewer Jetting Truck (vehicle #183). The truck being replaced is a nineteen (19) year old truck with mileage in excess of 47,000 miles. This truck is used by Public Works personnel for rodding combined and storm sewers for maintenance as well as during rain events. The drivetrain components of this vehicle are worn due to years of rodding activities. Severe corrosion of the under body components has also occurred, bringing this vehicle to the end of its useful life.

The retired vehicle will be sold at the Northwest Municipal Conference Auction. The Village has purchased vehicles from Sewer Equipment Co of America in the past and is satisfied with their vehicles.
