

E

Memorandum
Purchasing Division
Fire Department

TO: John T. Lockerby, Village Manager

FROM: 
James Walters, Fire Chief

Michael Aleksic, Purchasing Agent

DATE: August 31, 2015

SUBJECT: Fire Engine (E18) Refurbishment - Proprietary Pierce Command
Zone Electrical Work (Agenda Item)

Budget amount and account #: *\$98,600 020-0420-418.07-42 Project: I63246

*Budget amount includes funding for painting and bodywork, electrical and mechanical upgrades.

Tabulation:

Pierce Manufacturing, Weyauwega, Wi.

\$29,754.27

Recommendation:

It is recommended that a contract for proprietary electrical wiring work be awarded on a sole source basis to Pierce Manufacturing, Weyauwega, Wi., in the amount of \$29,754.27.

Comments:

The CIP budget includes funding for the refurbishment of Fire Engine 18. The refurbishment includes multiple contracts to various vendors for specialized work including bodywork and painting, rewiring of the Command Zone System, replacement of the suspension system and chassis corrosion treatment.

The subject project herein includes the replacement of wiring looms for the Pierce Command Zone Multiplex System. ~~The system controls every component on the fire engine and is exclusive to Pierce apparatus.~~ The fire engine being refurbished is 12 years old and the Command Zone system wiring has become corroded due to the wet environment and is losing continuity at the control modules.

The Village has worked with Pierce Manufacturing in the past and is pleased with the level of service that has been provided.

cc: Jason Wicha, Assistant Village Manager
