Tabulation:

Rush Truck Center, Chicago, IL 6/8 CY Dump Truck & Plow \$ 152,300

Recommendation:

Pricing for the equipment indicated above was obtained through the State of Illinois Joint Purchasing Program. It is recommended that a contract for the purchase of the replacement dump truck chassis, body, salt spreader and plows (Project Numbers K61122 through K61125) be awarded to Rush Truck Centers, Chicago, IL, in the amount of \$133,050. This price total includes a trade-in allowance of \$19,250 for the Village's existing 2005 dump truck.

Comments:

The FY 2017 CIP includes funding for the replacement of one (1) dump truck, underbody plow, plow and spreader for the Streets and Alley Division. The truck to be replaced, unit #141, is used for hauling stone for alley grading, asphalt for roadway repairs and dirt for stumping operations. This vehicle is also fitted with a plow and salt spreader to assist in snow and ice control operations. Unit #141 is a 2005 dump truck which currently has mileage in excess of 60,000 miles. This vehicle has been subjected to heavy hauling loads, which exposes the frame and suspension systems to fatigue. Additionally, it has

been exposed to the harsh elements of winter and road salt, and has significant corrosion of the truck dump body.

The Village has purchased trucks from Rush Truck Center in the past, and staff has been satisfied with the vehicles and equipment that they have provided.
