Comments:
The FY2018 CIP budget provides funding for replacement of one (1) pick-up truck for the Engineering Division. The vehicle that will be replaced is currently a 2008 Dodge Caravan. This vehicle is used daily by the Engineering Division. The current vehicle will have accrued in excess of 65,000 miles at time of replacement. The unit is badly worn on the interior and exterior from constant use on construction sites and carrying related tools and instruments. The suspension system and driveline have deteriorated as well.

The Village has successfully dealt with previous acquisitions from Roesch Ford. The new unit will be a 2017 Ford F-150 series pick-up truck. The retired vehicle will be disposed of through the Northwest Municipal Conference Auction.
