Ken Vermulen of Warner, Norcross & Judd, attorney for Smith & Sons, offered some changes to the ordinance as proposed.
City Attorney Roger Bird provided comment on the proposed changes.
Discussion followed.

Proposed changes will be sent to the Planning Board to be addressed at their next meeting and their comments will be forwarded to the City Commission for the City Commission’s consideration at their February 23, 2005 meeting.

Moved by Comm. Sunday-Horstman and seconded by Comm. Brew to consider this as the second reading and approval of the Amendment to the City of Sturgis Zoning Ordinance amending Section 1.0411 PDD-Planned Development District as presented.
ARTICLE IV – DESCRIPTION OF DISTRICTS

1.0411 PDD - PLANNED DEVELOPMENT DISTRICT

A. **Intent.** Planned Development Districts are promoted as special land uses in the City of Sturgis as a way for the City to encourage high quality development with an emphasis on enhanced architectural and site design, landscaping, pedestrian, motorized and nonmotorized activities. In creating a “win-win” situation, the developer may expect a cooperative working relationship with the City by receiving relief from typical zoning ordinance standards, such as setbacks and parking requirements. Planned Development Districts are not intended to be used for circumventing the more specific standards in the Zoning Ordinance. Rather, these provisions are intended to result in a higher level of development, which may not be feasible with traditional zoning regulations. If this improved level of development is not clearly apparent upon City review, a site shall not qualify for the modifications allowable under this Article.

(1) A Planned Development District (PDD) may be established as a zoning district when approved by the City Commission and Planning Board in accordance with the procedures specified herein. It is the intent of this District to:

(a) Provide for flexibility in the regulation of land development;
(b) To encourage innovation in land use and variety in design, layout, and type of structures;
(c) To achieve economy and efficiency in the use of land, natural resources, energy, and the provision of public services and utilities; and
(d) To encourage useful open space; and to create better living, working, and shopping environments.

(2) In order to accomplish these objectives, this provision permits the relaxation of the conventional requirements found in the zoning districts. The use of land and the construction and use of buildings and other structures as Planned Development Districts shall be in conformance with the procedures, standards, requirements, and conditions for eligibility contained in this Article.

B. **Eligibility Criteria.** Any development which fails to meet the following qualifying conditions, at a minimum, shall not be considered for a PDD:

(1) The PDD site shall not be less than three (3) acres of fully contiguous property not separated by a public road, railroad, or other such feature or barrier. The Planning Board may consider a PDD on lesser acreage if it is clear that the proposed PDD substantially promotes the intent of a PDD as stated above. In addition, the Planning Board may use the same intent section of the Zoning Ordinance when considering a PDD with property that may be separated by a public...
road, railroad, or other such feature or barrier. (e.g. - If the applicant owned property on the north and south sides of LaFayette Street, the applicant would need to prove why the separation would not restrict their ability to develop a cohesive PDD.)

(2) All PDD’s shall be served by public water and sanitary sewer facilities.

(3) The tract(s) of land for which a PDD application is received must be individually owned, jointly owned and jointly filed with all participating properties, or filed with legal option agreements relating to the property(ies) in question.

(4) The PDD shall provide for integrated, safe and abundant pedestrian access and movement within the PDD and to adjacent properties.

(5) The PDD shall provide for coordinated and innovative architectural styles, building forms and building relationships.

(6) The PDD shall provide for enhanced landscaping within the development. Examples include efforts to preserve the natural landscape, tree lined streets, decorative landscaping around structures and focal landscape areas.

(7) The proposed development shall not have an adverse impact on future development as proposed in the City’s Master Plan for Future Land Use.

(8) Open Space Requirements:
   (a) The PDD development shall contain usable open space in an amount equal to at least twenty (20) percent of the total PDD site. The Planning Board may consider a PDD with a lesser amount of open space if it is clear that the proposed PDD substantially promotes the Intent of this Article. It is noted that open space is a very important element of a PDD and reductions to the open space provision should be granted only as a result of specific reasons.

   (b) Useable open space shall not include required yards or buffers, parking areas, drives, rights-of-way, utility or road easements, storm water detention ponds, and structures.

   (c) Such open space shall be permanently set aside for the benefit, use, and enjoyment of present and future occupants of the PDD through covenant, deed restriction, open space easement, or similar legal instrument acceptable to the City; or, if agreed to by the City Commission, the open space may be conveyed to the City for the use of the general public.

C. Permitted Uses. Any permitted or special land uses otherwise allowed in the underlying District(s) in which the PDD is to be located may be approved within a PDD. A mixed use PDD may be allowed in a residential district allowing for a minimal amount of commercial uses as determined by the Planning Board that relate to the project (e.g. – fifteen {15} percent ). At least thirty (30) percent of the residential uses in the PDD would need to be
provided prior to developing the commercial portion of a mixed use PDD. In a mixed use PDD, the applicant must demonstrate that the proposed use(s) would enhance the development and be compatible with surrounding and nearby uses.

**PDD Design Standards.**

1. **General Standards.**
   (a) Signs, lighting, landscaping, building architecture and materials, and other features of the project, shall be designed to achieve an integrated and controlled development.

2. **Dimensional Requirements.** To encourage flexibility and creativity consistent with the intent of the PDD, specific departures may be permitted from the requirements of the Zoning Ordinance as a part of the approval process. Any regulatory modification shall be approved through a finding that the deviation shall result in a higher quality of development than would be possible using conventional zoning standards.

3. **Parking.**
   (a) To encourage a true integration of mixed uses and improved efficiency in land use, the overlap in parking requirements may be permitted between uses that have alternating peak-parking demands or where the mixture of uses on a site would result in multi-purpose trips. The Planning Board should use caution when considering parking requirements for certain commercial uses due to potential tenant changes that may require more parking than a previous tenant. The district regulations should be used as a guide. All parking requirements shall be written into the final site plan.

   (b) Parking lot landscaping – Site design and landscaping should diminish the prominence of parking lots as viewed from public streets.

4. **Signs.** Residential and commercial entrance signs may deviate from the district requirements and shall be approved as part of the final site plan.

5. **Driveway Access and Circulation.**
   (a) Large PDD developments shall have limited access to major arterial routes. Access drives shall have limited access onto major and arterial roads. Additional access drives onto a major or arterial road should only be considered if spaced at least five hundred (500) feet apart. The Planning Board may require the PDD applicant to provide a traffic impact study prior to any approvals, if deemed necessary.

   (b) Site design considerations should take into account vehicle stacking and queuing depths, traffic flows focused on main access points, peak hour volumes, internal site circulation, delivery routes, refuse pick-up/dumpster locations, etc.
E. **Planned Development District Approval Process.**

(1) **PDD Zoning District.**

(a) A property meeting the eligibility criteria may be rezoned to a PDD District, based on the requirements of this Section and appropriate requirements contained elsewhere in this Ordinance. Unless initiated by the City, the rezoning shall be concurrent with the approval of a preliminary PDD site plan.

(b) Rezonings initiated by the City shall not be required to have an approved sketch plan or Development Agreement. No development shall take place within the PDD until a final site plan and Development Agreement has been submitted and approved in accordance with the provisions of this Article.

(c) Once rezoned, the PDD designation shall be noted on the Official Zoning Map.

(2) **Pre-Application Process.** To help facilitate a more streamlined process, PDD candidates are encouraged to take full advantage of pre-application meetings and workshops.

(a) **Pre-Application Staff Meetings.** An applicant is encouraged to schedule PDD concept meetings through the Zoning Administrator. In order to establish a more productive PDD concept meeting, the applicant may want to consider submitting concept plans in advance of the meeting. Regardless, City staff will diligently work to help facilitate an open collaborative process allowing the applicant to best understand city staff desires for the PDD, along with any utility and infrastructure opportunities or concerns. City Planning Board or Commission members may be requested to assist in the process. These meetings do not infer approvals and no formal action is taken.

(b) **Pre-Application Planning Board Workshop.** An optional pre-application workshop with the Planning Board may be requested by the applicant to discuss a PDD concept, solicit feedback and receive requests for additional materials supporting the proposal. No formal action is taken at a workshop.

(3) **PDD Preliminary Plan Application.** The applicant shall prepare and submit to the City a written request for PDD rezoning that shall include a PDD preliminary plan meeting the requirements of Section 1.1203. The Zoning Administrator can determine the necessity of all the requirements in Section 1.1203. A suitable number, as determined by the Zoning Administrator, of the preliminary plan shall be provided. The PDD application and preliminary plan shall be submitted in advance of any Planning Board meeting within the time established by the Zoning Administrator. The extensiveness of the project will determine the amount of time necessary, realizing that the
preliminary plan will need to be reviewed by city staff. An applicant that utilized the pre-application process should have a clear indication of city staff thoughts, concerns, etc. by the time the application is submitted. Additional items to be included on the PDD preliminary plan include:

(a) Phases of development, anticipated start and completion dates of construction and approximate time frame for each phase (if a phased project).
(b) Proposed deed restrictions, covenants, or similar legal instruments to be used within the PDD.
(c) Location, type, and size of areas to be dedicated for common open space.

(4) Planning Board Public Hearing and Recommendation. The Planning Board shall review the PDD rezoning request, the PDD preliminary plan, and conduct a public hearing. Following the public hearing, the Planning Board shall make a recommendation to the City Commission based on the following standards:

(a) The PDD complies with the Intent of this Article.
(b) The PDD satisfies the Eligibility Criteria of this Article.
(c) The PDD complies with the requirements of this Article, other applicable requirements of the Zoning Ordinance and applicable requirements of the subdivision or condominium requirements of the City.
(d) The PDD conforms to the Criteria for Review of site plans, Section 1.1206 of this Ordinance or Section 1.1300, (E) 1-4, except as noted above in 1.0411, E,(3).
(e) The PDD is designed and constructed in a manner harmonious with the character of adjacent property and the surrounding area.
(f) The PDD is adequately served by essential public facilities and services, such as roads, pedestrian or bicycle facilities, police and fire protection, drainage systems, water supply and sewage facilities.
(g) The proposed PDD does not have a significant adverse effect on the quality of the natural environment.

(5) City Commission Preliminary PDD Decision. Following receipt of the Planning Board's recommendation and comments from the Public Hearing, the proposed PDD preliminary plan shall be considered by the City Commission. The City Commission, following the 2nd reading, shall take one (1) of the following actions on the request:

(a) Table. If the application is determined to be insufficient, does not fully respond to Planning Board issues or more information is required, then the request may be tabled. The City Commission shall direct the applicant to prepare
additional information, revise the PDD plan or direct the City staff to conduct additional analysis.

(b) Reconsideration. If the City Commission believes there is new information which might modify the recommendation of the Planning Board, the City Commission may return the application with the new information to the Planning Board for reconsideration. The Planning Board shall provide a recommendation within thirty (30) days.

(c) Approval. Upon determination that a PDD preliminary plan is in compliance with the standards and requirements of this Ordinance and other applicable ordinances and laws, the City Commission shall approve the PDD preliminary PDD plan. The City Commission may impose reasonable conditions with the approval of a preliminary PDD. Conditions of any approval are attached to the land and will remain through subsequent owners. Approval conditions will be established into a Development Agreement drafted by the City and to be signed by the applicant.

(d) Denial. Upon determination that a PDD preliminary plan does not comply with standards and regulations set forth in this Ordinance, or requires extensive revision in order to comply with said standards and regulations, the City Commission shall deny the application. Re-submittal of an application which was denied shall be considered a new application.

F. **PDD Preliminary Plan Approval Validity.** Approval of the preliminary plan by the City Commission shall be effective for a period of two (2) years and the accepted plan may be extended for one (1) year upon expiration of the two (2) year period provided conditions have not changed that would be cause for denial of the extension. The two (2) year period for preliminary PDD approval may be extended for one (1) year, if applied for by the petitioner and granted by the City Commission.

G. **PDD Final Plan Application.**

(1) Prior to any development of the PDD, final site plans shall be submitted for review and approval in accordance with Article XII, Site Plan Review. If final site plans meeting the requirements of Section 1.1204 for at least the first phase of the project are not submitted and approved during the approval period, the right to develop under the approved PDD preliminary plan shall terminate and a new application must then be filed and processed. In reviewing final site plans, the following shall apply:

(b) Site plans shall be in substantial conformance with the PDD preliminary plan.

(c) Each site plan shall either individually or in combination with previously approved contiguous project areas, meet the
standards of this Article and the approved PDD preliminary plan regarding layout, open space and land use.

(d) If the plan consists of phases, then the site plan review process is only required for the specific phase(s) being presented for final approval to the Planning Board. Each subsequent phase shall be reviewed in the same manner.

H. **PDD Final Plan Approval.**

(1) The Planning Board shall review the final development plan in relation to its conformance with the preliminary development plan and any conditions of the PDD rezoning. If it is determined that the final plan is not in substantial conformance with the preliminarily development plan, the review process shall be conducted as a preliminary development plan review, in accordance with the procedures mentioned for preliminary plan review of this Article.

(2) If the final development plan is consistent with the approved preliminarily development plan, the Planning Board shall review the final plan in accordance with the standards for approval stated in Article XII, Site Plan Review.

(3) The Planning Board shall prepare a record of its findings and shall approve, approve with conditions, or deny the final development plan.

(4) Any zoning ordinance regulatory modification (e.g.-- setbacks) may be approved through a finding by the Planning Board that the deviation shall result in a higher quality of development than would be possible using conventional zoning standards. A table shall be provided on the final site plan which specifically details all deviations from the established zoning area, height and setback regulations, off-street parking regulations, general provisions, or subdivision regulations which would otherwise be applicable to the uses and development proposed in the absence of this PDD section.

I. **PDD Development Agreement.**

(1) Prior to issuance of any building permits or commencement of construction on any portion of the PDD, the applicant shall enter into an agreement with the City in recordable form, setting forth the applicant's obligations with respect to the PDD. The agreement shall describe all improvements to be constructed as part of the PDD and shall incorporate, by reference, the final development plan with all required revisions, other documents which comprise the PDD, and all attached conditions. Approval shall be effective upon recording. At a minimum, the Agreement shall provide:

(a) A survey of the acreage comprising the proposed development.

(b) The manner of ownership of the developed land.

(c) The manner of the ownership and of dedication or mechanism to protect any areas designated as common areas or open
space.

(d) Open space provisions assuring open space areas shown on the plan for use by the public or residents of the development will be or have been irrevocably committed for that purpose. The City may require conveyances or other documents to accomplish this purpose.

(e) Satisfactory provisions to provide for the future financing of any improvements shown on the plan for site improvements, open space areas and common areas which are to be included within the development and that maintenance of such improvements is assured by a means satisfactory to the City. The City may require a performance guarantee to accomplish this purpose.

(f) Provisions to ensure adequate protection of natural features.

(g) A phasing plan shall also be submitted describing the intended schedule for start and completion of each phase and the improvements to be undertaken in each phase.

(h) The agreement shall also establish the remedies of the City in the event of default by the applicant in carrying out the PDD, and such remedies shall be binding on all successors in interest to the applicant.

(2) Any amendment requested to the recorded Development Agreement shall be submitted for review by the City Attorney and approved by the Zoning Administrator.

(3) All documents shall be executed and recorded in the County Register of Deeds.

J. **Revisions to an Approved PDD Plan.** Approval of the final site plan confers upon the Zoning Administrator the authority to approve certain minor deviations in accordance with the requirements of this Article. The Zoning Administrator shall determine whether the change is major, warranting review by the Planning Board, or minor, allowing administrative approval, as noted below:

(1) The holder of an approved PDD final development plan shall notify the Zoning Administrator of any desired change to the approved PDD.

(2) Minor changes. Minor Changes may be approved by the Zoning Administrator upon determining that the proposed revision(s) will not alter the basic design and character of the PDD, nor any specified conditions imposed as part of the original approval. Minor changes shall include the following:

(a) Reduction of the size or height of any building;
(b) Movement of buildings and/or signs by no more than ten (10) feet if consistent with required setbacks, open space and other standards;
(c) Landscaping approved in the final development plan that is
replaced by similar landscaping to an equal or greater extent;

(d) Changes in floor plans, of up to five (5) percent of the total floor area, which do not alter the character of the use or increase the amount of required parking;

(e) Internal rearrangement of a parking lot which does not affect the number of parking spaces or alter access locations or design;

(f) Improvements or slight relocation of site access or circulation, such as inclusion of deceleration lanes, boulevards, curbing or pedestrian/bicycle paths, where appropriate;

(g) Changes of building materials to another of higher quality, or a slight change in the color of the exterior material, as determined by the Building Official and Zoning Administrator;

(h) Grade change of up to one (1) foot, reviewed by the City Engineer;

(i) Modification of entry design, sign placement or reduction in size of signs, which is consistent with the approved sketch or final PDD plan;

(j) Internal rearrangement of parking lots which does not affect the number of parking spaces or alter access locations or design;

(k) Changes to the location of accessory buildings and structures only when the new location will be consistent with the building envelope identified on the approved plan; and

(l) Changes required or requested by the City, County, or other State or Federal regulatory agency in order to conform to other laws or regulations which do not substantially modify the plan.

(3) Major Changes. A proposed change not determined by the Zoning Administrator to be minor shall be submitted as an amendment to the PDD and shall be processed in the same manner as the original PDD application for the final development plan.

K. Limitations on Variances from Zoning Board of Appeals. Regulatory modifications are not subject to variance approval of the Zoning Board of Appeals. No part of a PDD plan may be appealed to the Zoning Board of Appeals. This provision shall not hamper an individual lot owner from seeking a variance (e.g. - a residential detached garage variance related to setbacks) following final approval of the PDD, provided such variance does not involve alterations to open space areas as shown on the approved PDD site plan.

L. PDD Preliminary Final Plan Approval Validity. Each approved Final PDD or PDD phase must be under construction within twelve (12) months after the date of approval of the PDD final development plan(s), except as noted in this Section.
The Planning Board may grant one (1) extension of up to one (1) additional twelve (12) month period from the expiration date of the PDD or a PDD phase if the applicant applies for such extension prior to the date of the expiration of the PDD or PDD phase and provided that:

(a) The applicant presents reasonable evidence that the development has encountered unforeseen difficulties beyond the control of the applicant; and

(b) The PDD requirements and standards, including those of the Zoning Ordinance, that are reasonably related to the development have not changed.

Should neither of the above two (2) provisions be fulfilled, or an extension has expired without construction underway, the PDD preliminary plan approval(s) shall be null and void. This does not include any phases that may have received final PDD approval.

Should the PDD district become null and void, the subject property remains zoned as a PDD, but the preliminary or final PDD plans previously approved become null and void. In order to utilize the property as a PDD, an applicant would have to resubmit plans for preliminary and final PDD site plan approvals as stated in this Chapter, but would not require PDD rezoning action from the Board, unless the proposed PDD project includes different land uses other than previously approved (i.e. – commercial verses residential).

Moved by Comm. Sisson and seconded by Comm. Sunday-Horstman to set a Public Hearing on February 23, 2005 at 7:30 p.m. in the Wiesloch Raum of City Hall to consider the creation of an Industrial Development District.

City Manager Tod B. Mowery and City Attorney Roger Bird brought to the attention of the City Commission a pending court case related to Michigan Natural Resources Trust Fund and its ability to generate revenue from oil and gas rights from tax foreclosed property (Comben v State of Michigan). The City Attorney explained that there is a request to participate in an Amicus Curiae brief on behalf of the State of Michigan. The City Commission had consensus in supporting the efforts of the State, but no formal action was taken at this time.

Meeting was adjourned at 8:28 p.m.
Kenneth D. Rhodes, City of Sturgis Clerk/Treasurer
Mayor Haas called the meeting to order at 6:00 p.m.

Commissioners present: Mayer, Huber, Fisher, Littman, Vice-Mayor Sisson, Mayor Haas

Asst. City Manager Todd Campbell and City Attorney Roger Bird provided background on the development and changes to a mineral mining ordinance.

Moved by Comm. Sisson and seconded by Comm. Mayer to consider this as the second reading and approval of the Amendments to the City of Sturgis Zoning Ordinance amending Section 1.0202 Definitions—Specific Terms: “Mineral” and “Mineral Extraction” / Section 1.0401 R-1 Rural Residential, Item C. Special Land Uses, #7. Mineral Extraction Operations / Section 1.0409 M Manufacturing, Item C. Special Land Uses, #10. Mineral Extraction Operations / Article VI Special Land Uses and Structures, Section 1.0603 Special Land Use Designated, Item II. Mineral Extraction Operations as presented.
AMENDMENT TO PART II – APPENDIX
OF THE ORDINANCES
OF THE CITY OF STURGIS

An ordinance to amend Part II – Appendix, Sections 1.0202, 1.0401, 1.0409 and 1.0603 of the Zoning Ordinances of the City of Sturgis to allow for mineral extraction operations as a special land use in the R-1 Rural Residential and M-Manufacturing Districts.

WHEREAS the City of Sturgis has determined that it is in the best interest of the residents of the City to amend the Zoning Ordinance to provide for mineral extraction operations as a special land use in the Rural Residential and Manufacturing Districts;

NOW, THEREFORE, the City of Sturgis, St. Joseph County, Michigan, ordains:

Part II – Appendix, Sections 1.0202, 1.0401, 1.0409 and 1.0603 are hereby amended to include the following effective as of March 18, 2005:

Sec. 1.0202. Specific terms.

Abandonment. The cessation of activity in, or use of a dwelling, structure, or lot, other than that which would normally occur on a seasonal basis, for a period of 12 months or longer. For purposes of Mineral Extraction Operations, “abandonment” at any particular site shall be determined by the Planning Board giving consideration to any specific site plan.

Mineral. Any aggregate or mass of mineral matter, whether or not coherent. The term includes, but is not limited to, limestone and dolomite, sand and gravel, rock and stone, earth, fill, slag, iron ore, zinc ore, vermiculite and clay, anthracite and bituminous coal, coal refuse, peat and crude oil and natural gas.

Mineral Extraction. The removal of overburden and minerals from the earth; the preparation and processing of minerals, including any activities or processes or part thereof for the extraction or removal of minerals from their original location and/or the preparation, washing, cleaning, crushing, stockpiling, or other processing of minerals at the subject location so as to make them suitable for commercial, industrial or construction use.

Sec. 1.0401(C). Special land uses.

…

(7) Mineral Extraction Operations.

Sec. 1.0409(C). Special land uses.

…

(10) Mineral Extraction Operations

Sec. 1.0603. Special land use designated.

…

(II) Mineral Extraction Operations: Mineral Extraction Operations shall be subject to the following requirements in addition to those of the District in which the use is located, as well as all other applicable conditions, standards and regulations regarding site design and development:

(1) Special Land Use Approval: No mineral shall be removed from any land within the City of Sturgis without Special Land Use approval, except for in the following circumstances:

a. When the earth removal is incidental to an operation for which a building permit has been issued by the City;

b. When the earth removal involves any normal landscaping, driveway installation and repairs, or other minor projects;

c. The earth removal involves less than one-hundred (100) cubic yards;
d. The earth removal will not be in violation of any other section of this ordinance, other City ordinances, Soil Erosion and Sedimentation Control Act of 1972, or any other applicable state or federal law.

(2) Review and Approval Criteria: Planning Board review and approval of a Special Land Use request for a mineral extraction operation shall be in accordance with all applicable provisions of this Ordinance; and shall also be based on consideration of the following factors:

a. Review and Approval Criteria:

(1) Confirmed presence of large volumes of high-quality, mineral resource deposits that will sustain an operation over a specified period of time. If deemed necessary by the Planning Board, the presence of such resource deposits shall be confirmed by the appropriate governmental agency having regulatory authority over any respective mineral industry (e.g. the Department of Natural Resources).

(2) The most practical use of the land, resources and property.

(3) The protection and preservation of the general health, safety and welfare of the City.

(4) Adequacy of state and local transportation systems, and private access and haul road(s), to accommodate heavy equipment and truck traffic.

(5) Compatibility with existing or planned land use patterns in the area.

(6) Presence of fish and habitat and/or threatened and endangered species.

(7) Impacts to air and water quality and the natural environment, including critical areas (i.e. sensitive environmental lands).

(8) Proximity to major transportation corridors and market areas.

(9) Existence of the operations prior to the adoption of the provisions of this Ordinance and the extent and character of such previous operations.

(10) The mineral excavation operation will not result in very serious consequences to surrounding properties for the community in general.

b. Conditions of Approval: In making any decision, the Planning Board reserves the right to impose such additional conditions and safeguards as it deems necessary to limit the length of time the Special Land Use is to be effective and may provide for a periodic review of the proposed operations to determine compliance with the conditions and limitations imposed upon the same. The Planning Board may renew or extend a Special Land Use approval where all standards and conditions are complied with and may revoke or refuse to renew the same where non-compliance exists, in accordance with this Ordinance. No revocation or failure to renew or extend a permit shall release the applicant from the duty of rehabilitation and reclamation of a mined or disturbed area.

(3) Site Plan Approval: Site Plan approval is required with the Special Land Use approval in accordance with Article XII. Mining site/operations shall be conducted in accordance with an approved site plan and conditions of permit approval. In addition to required application items listed in Section 1.1204, the site plan shall indicate the location of all mining activities, including excavation, processing, stockpiling, batching, product manufacture and sales areas, equipment maintenance and storage areas, truck routes and haul roads, as well as any excluded areas resulting from setbacks and other requirements of local, state and/or federal law. The application must also specify the duration of the mineral extraction operation.

(4) Necessary Studies: The Planning Board may require an environmental impact statement, engineering data, traffic impact study or other such documentation supporting the need for and/or identifying the consequences of such extraction operations.
(5) Use Establishment: All uses shall be established and maintained in accordance with all applicable State of Michigan statutes. If any of the requirements of this subsection are less restrictive than applicable State statutes, the State requirements shall prevail.

(6) Location: No machinery shall be erected or maintained within one hundred fifty (150) feet of any property or street line. No cut or excavation shall be made closer than fifty (50) feet to any street right-of-way line or property line in order to ensure sublateral support to surrounding property. The setback area shall not be used in conjunction with mineral extraction, except for access, berms, fencing, landscaping and/or signs. All excavation operations, processing plants and accessory structures shall be set back a minimum two hundred fifty (250) feet from the banks of any lake, stream or other watercourse. The Planning Board may require greater distances for the location of machinery, storage or parking of equipment, or limits of excavation where the site is located in or within two hundred (200) feet of any residential or commercial use or district.

(7) Safety: Safety measures shall be implemented in accordance with state and federal requirements to protect the public from harm during utility construction, improvements, location or relocation.

(8) Screening: As determined by the Planning Board, all operations visible from any roadway or developed adjacent land use shall be screened by an evergreen planting established at least six (6) feet in height, obscured decorative fencing at least six (6) feet in height, or landscaped berm of at least six (6) feet in height with decorative landscaping placed along the top of the berm at a level determined by the zoning administrator. If determined appropriate by the Planning Board, a combination of the above screening methods may be used.

(9) Fencing: All areas of the operation shall be secured with fencing adequate to prevent trespass at a minimum height of six (6) feet. Any excavation operation which results in, or produces for a period of at least one (1) month during the year, collections of water or severe slopes, as described below, shall be subject to the following safety requirements:

a. Where an excavation leaves standing water with a depth of greater than one (1) foot for any period of at least one (1) month, and occupying an area of two hundred (200) square feet or more, the applicant shall erect a fence completely surrounding the portion of the site where the body of water extends, and shall be placed no closer than fifty (50) feet to the top or bottom of any slope. The fence shall not be less than six (6) feet in height complete with gates, which gates shall be kept locked when operations are not being conducted.

b. Where slopes 3:1 horizontal to vertical or steeper exist for a period of one (1) month or more, access to such slopes shall be barred by a fence at least six (6) feet high and at least fifty (50) feet outside the edge of the excavation, with suitable gates controlling access to the excavation area.

(10) Operational Buildings: No building shall be erected or placed on the premises except as may otherwise be permitted in the zoning ordinance or except as temporary shelter for machinery or for a field office, subject to approval by the Planning Board. All such buildings must be shown on the approved site plan.

(11) Access Routes: The Planning Board shall determine routes for truck movement to and from the site in order to minimize the wear on public streets and to prevent hazards and damage to properties in the community. Access roads within the area of operation shall be provided with a dustless surface and the entry road shall be hard surfaced for a distance established by the Planning Board to minimize dust, mud, and debris being carried onto the public street. There shall not be more than one entrance way from a public road for each 660 feet of front lot line. Each entranceway shall be located not less than 500 feet from an intersection of two or more public
roads.
(12) Welfare: All permitted installations shall be maintained in a neat, orderly condition so as to prevent injury to property, individuals, or to the community in general.
(13) Nuisance: Proper measures, as determined by the Zoning Administrator shall be taken to minimize the nuisance of noise and flying dust or rock. Such measures may include, when considered necessary, limitations upon the practice of stockpiling excavated material upon the site. Stockpiles of mineral resource extractions shall not exceed one hundred (100) feet in height as measured from ground level before excavation, and shall be setback from all parcel boundary lines the greater of one hundred fifty (150) feet or twice the height of the stockpile. The setback distance shall be measured from the edge of the stockpile.

Equipment shall be installed, used and maintained so that noise and vibration emitted from the site do not exceed the level reasonably necessary for the operation of the equipment. Noise from the site shall conform with the standards listed in Section 1.0409(D)(2)(e).
(14) Environmental Protection: All fuels, chemicals and other hazardous materials to be contained on site shall be noted in the application, including material, quality, use, and method or primary and secondary containment. All containment structures or devices shall be designed and operated to prevent groundwater pollution. The applicant shall provide a written spill response plan, in the event that a hazardous materials spill occurs on site. The spill response plan shall indicate how any and all contaminated material will be collected and properly disposed. Mineral resource extraction operations shall not:

a. Create erosion problems or alter the groundwater table of the area.
b. Cause the creation of sand blows, stagnant water pools, or stagnant swampy areas.
c. Cause a permanent adverse affect to the environment, natural topography, or any natural resource, other than the earth materials involved.
(15) Operation: All uses shall be conducted according to the following operational timelines:

a. Mineral resource extraction operations shall not operate prior to 7:00 a.m. or after 7:00 p.m., Monday through Friday. Saturday operations shall not operate prior to 8:00 a.m. or after 3:00 p.m. Operations shall not operate any time on Sundays or holidays as observed by the City of Sturgis. The Planning Board may further limit the days and hours of operation pursuant to Article VI, Section 1.0602.
b. Inactivity of mineral resource extraction operations for a 12-month consecutive period shall constitute termination of such activities.
(16) Rehabilitation Plan: A rehabilitation plan toward reclamation of a mining area is also required and shall be submitted in conjunction with the site plan review. Such plan shall include:

a. A statement of planned rehabilitation, including methods of accomplishment, phasing and timing. The plan must comply with the following:

(1) Ensure final contours of the reclaimed property are consistent with the natural contours of adjacent lands. All portions of the site shall be graded so that no gradients in disturbed earth shall be steeper than a slope of 6:1 (horizontal-vertical).
(2) Remove all debris, temporary structures and stockpiles.
(3) A layer of arable topsoil, of a quality approved by the Zoning Administrator, shall be spread over the excavated area, except exposed rock surfaces or areas lying below natural water level, to a minimum depth of four (4) inches in accordance with an approved reclamation plan. The area shall be seeded with a suitable native ground cover sufficient to control erosion and maintained until the area is stabilized for a specific reclaimed use and approved by the Planning Board.
(4) Water accumulating upon the site may be retained after the completion of such operation when, due to the excavation, such water cannot reasonably be drained by gravity flow; provided, that provisions shall be made to avoid stagnation (with the exception of man-made lakes), pollution and improperly controlled releases of such water that may endanger the public. Where excavation operation results in a body of water, the owner or operator shall place appropriate "Keep Out Danger" signs around said premises not more than one hundred fifty (150) feet apart.

(5) Perform final restoration to conform to zoning regulations in effect at the time of implementation.

(6) Identify the possible or potential end use of the rehabilitated area.
   b. A phasing plan, if the excavation of the site is to be accomplished in phases. This plan shall indicate the area and extent of each phase and the approximate timing of each phase.
   c. Reclamation timing must comply with the following:
      (1) Rehabilitation of mined areas shall be accomplished as soon as practicable following the mining or excavation of an area. Rehabilitation and reclamation shall be commenced immediately upon the termination of the mining or excavation operations in any area consisting of one acre or more. Substantial completion of reclamation and rehabilitation, including grading, debris removal and revegetation, shall be achieved within one year of termination of mining or excavation activity.
      (2) Upon cessation of mining operations by abandonment or otherwise, the operating company, within a time not to exceed twelve (12) months, shall remove all structures, foundations, buildings, stockpiles and equipment, provided that buildings and structures which have a function under the reclamation plan and which can be lawfully used under the requirements of the zoning district in which they will be located may be retained.
      (3) Restoration shall be completed within two years from the date of completion or abandonment of the subject site or portion of the site.

(17) Explosives: The use of explosives shall be done in accordance with the “Regulations for Storage and Handling of Explosives,” as published by the Michigan State Police, Fire Marshall Division, and local applicable ordinance requirements.

(18) Performance Bond: The Planning Board shall require a performance bond or other guarantee as deemed necessary to ensure that the requirements of this Ordinance are fulfilled, and may revoke the Special Land Use approval at any time if specified conditions are not met.

(19) Liability Insurance: All owners/operators of property involved in mineral resource extraction operations shall be required to carry personal injury and property damage insurance while any unreclaimed or unrehabilitated area exists, in the amount of not less than $1,000,000 per incident. Such insurance shall cover injury or damage occurring upon the site of the operations as well as upon properties adjoining thereto, as a result of conditions or activities existing upon the site. A copy of the policy shall be submitted annually with the City Clerk.

(20) Inspections: A mining permit will be issued upon approval of a Special Land Use and renewed by the owner/operator on an annual basis. To insure compliance with the permit, the Zoning Administrator shall conduct periodic inspections and shall file a written annual report to the Planning Board.

(21) Allowance for Associated Uses: Approval of mineral extraction activities as a Special Land Use may include allowance for related types of uses, including but not limited to, concrete mixing and asphalt plants, situated and operated in conjunction with such activities, subject to compliance with all the preceding provisions. Such associated activities and uses are subject to separate Special Land Use review and approval.

AMENDMENT TO PART II – ARTICLE III, DIVISION 2
OF THE ORDINANCES OF THE CITY OF STURGIS

An ordinance to amend Part II – Article III, Division 2 of the Ordinances of the City of Sturgis pertaining to the regulation of the City of Sturgis retirement system and to provide for an effective date of this Ordinance.

WHEREAS, the City of Sturgis has determined that it is in the best interest of the residents of the City to amend the Ordinances regulating the retirement system for the City’s employees;

NOW, THEREFORE, the City of Sturgis, St. Joseph County, Michigan, ordains:

Part II – Article III, Division 2 are hereby amended to include the following effective as of April 15, 2005:

Sec. 2-83. Application.
(a) The continuation and restatement of the employees’ retirement system will apply to individuals employed by the city on and after the effective date of the restatement. The retirement rights of an individual whose city employment terminated before the effective date of this restatement will be governed by the provisions of the retirement system ordinance in effect on the date the individual last terminated employment.
(b) The terms of any collective bargaining agreement entered into between the city and a benefit group shall be honored by the board of trustees. In the event the provisions of this ordinance conflict with the terms of a collective bargaining agreement, the provisions of the collective bargaining agreement shall be controlling.

Sec. 2-87. Vested termination of membership.
(a) A person who ceases to be a member for a reason other than retirement or death shall be a vested former member if: the individual’s accumulated member contributions have not been refunded and the individual has five or more years of credited service.

Sec. 2-90. Subrogation; right of setoff.
...
(b) The retirement system shall have the right of setoff to recover overpayments made by the retirement system and to satisfy any claim arising from embezzlement or fraud committed by a member, retired member, vested former member, beneficiary, or other individual having a claim to benefits. The right to setoff to satisfy claims shall apply to embezzlement or fraud committed against the retirement system, against the city, or against any third party if, on account of the embezzlement or fraud, the city or retirement system becomes liable to a third party. If any aspect of this Section is unenforceable under any current or future federal or State of Michigan law—including statute, regulation, or public policy—then this section shall be ineffective only to the extent of such unenforceability, without invalidating the remaining provisions of this section.

Sec. 2-116. Records; reports.

(c) The secretary of the board shall maintain copies of all collective bargaining agreements between a benefit group and the city and shall maintain a current summary of all provisions that are in conflict with this ordinance.

Mayor Haas opened the Public Hearing on consideration of awarding an IFEC to Burr Oak Tool and Gauge.

Mayor Haas closed the Public Hearing.

Moved by Comm. Littman and seconded by Comm. Mayer to adopt the resolution as presented awarding an Industrial Facilities Exemption Certificate, not-to-exceed $11,705,000.00 to Burr Oak Tool & Gauge, for a period of twelve (12) years, beginning on January 1, 2006 and an ending date of December 31, 2017.

WHEREAS, Burr Oak Tool and Gauge in conformity with Act 198 of the Public Acts of 1974, as amended (Act 198) has submitted an application providing all information and requirements necessary for granting of an Industrial Facilities Exemption Certificate by the City of Sturgis, County of St. Joseph, State of Michigan to Burr Oak Tool and Gauge, and

WHEREAS, on June 27, 1990 and February 23, 2005 the City Commission established the Industrial Development District for the industrial property of Burr Oak Tool and Gauge and

WHEREAS, the Sturgis City Assessor, and representatives of all affected taxing units were notified by certified mail of the time and place of the hearing on the application, and

WHEREAS, a hearing was held by the Sturgis City Commission providing the Assessor, and representatives of all affected taxing units the opportunity to be heard as required by the statute, and

WHEREAS, comments on granting of the Industrial Facilities Exemption Certificate have been heard and considered, and
WHEREAS, it is hereby found and determined by the Sturgis City Commission that the granting of this Industrial Facilities Exemption Certificate, considered together with the aggregate amount of the Industrial Facilities Exemption Certificates previously granted and currently in force under Act No. 198 of the Public Acts of 1974 and Act No. 255 of the Public Acts of 1978, shall not have the effect of substantially impeding the operation of the City of Sturgis, or of impairing the financial soundness of a taxing unit which levies an ad valorem property tax in the City of Sturgis, and

WHEREAS, the Sturgis City Commission, under Section 16 (1) of Act 198, of the P.A. of 1974 and Act No. 255 of the Public Acts of 1978, as amended, has determined that the length of the Industrial Facilities Exemption Certificate shall remain in force and effect for a period of 12 years with an ending date of December 31, 2016.

NOW, THEREFORE BE IT RESOLVED, that the Sturgis City Commission does hereby approve the application of Burr Oak Tool and Gauge for an “Industrial Facilities Exemption Certificate”.

Police Chief Dave Northrop spoke regarding the National Incident Management System.

Moved by Comm. Austermann and seconded by Comm. Malone to rescind the resolution, dated December 19, 2001, adopting the Emergency Operations Center and approve the resolution that adopts the National Incident Management System as follows:

RESOLUTION

DESIGNATION OF THE NATIONAL INCIDENT MANAGEMENT SYSTEM (NIMS) AS THE BASIS FOR ALL INCIDENT MANAGEMENT IN THE CITY OF STURGIS

WHEREAS, the President in Homeland Security Directive (HSPD)-5, directed the Secretary of the Department of Homeland Security to develop and administer a National Incident Management System (NIMS), which would provide a consistent nationwide approach for Federal, State, an local governments to work together more effectively and efficiently to prevent, prepare for, respond to and recover from domestic incidents, regardless of cause, size or complexity;

WHEREAS, the collective input and guidance from all Federal, State, and local homeland security partners has been, and will continue to be, vital to the development, effective implementation and utilization of a comprehensive NIMS;

WHEREAS, it is necessary and desirable that all Federal, State, and local emergency agencies and personnel coordinate their efforts to effectively and efficiently provide the highest levels of incident management;

WHEREAS, to facilitate the most efficient and effective incident management it is critical that Federal, State, and local organizations utilize standardized terminology, standardized organizational structures, interoperable communications, consolidated action plans, unified command structures, uniform personnel qualification standards, uniform standards for planning, training, and exercising, comprehensive resource management, and designated incident facilities during emergencies or disasters;

WHEREAS, the NIMS standardized procedures for managing personnel, communications, facilities and resources will improve the State's ability to utilize federal funding to enhance local and state agency readiness, maintain first responder safety, and streamline incident management processes;

WHEREAS, the Incident Command System components of NIMS are already an integral part of various incident management activities throughout the State, including current emergency management training programs; and

WHEREAS, the National Commission on Terrorist Attacks (9-11 Commission) recommended adoption of a standardized Incident Command System;

WHEREAS, on December 7, 2004, the St. Joseph County Emergency Management Center adopted a similar resolution, which replaced the Incident Command System.

NOW, THEREFORE, the Sturgis City Commission does hereby establish the National Incident Management System (NIMS) as the City’s standard for incident management.

Discussion followed.

Moved by Comm. Sisson and seconded by Comm. Malone to adopt the Resolution requesting the State of Michigan to designate Mayer Tool & Engineering, Inc. and Johnson Precision Mold & Engineering as eligible for Recovery Zone status for a duration of up to the 15 years allowable maximum within the Southwest Michigan Global Tooling and Technology Collaborative.

Resolution to Request a Tool & Die Renaissance Recovery Zone
WHEREAS, the City of Sturgis desires to promote economic activity and maintain / increase the number of jobs available to the residents of the area, and;
WHEREAS, certain industries in the state are facing difficult times and the tool and die industry, in particular, has sustained losses due to foreign competition and increased productivity; and
WHEREAS, the designation of a Renaissance Recovery Zone will temporarily reduce the tax burden paid by the businesses enabling them to reposition themselves to compete globally, and;
WHEREAS, the businesses have entered into a collaborative agreement with other business entities having the appropriate North American industrial classification, and;
WHEREAS, the qualified tool and die business property is property owned by tool and die businesses and used primarily for tool and die operations, and;
WHEREAS, should the area be designated a Renaissance Recovery Zone, property within that zone will be exempt from taxes levied by the city, county, and other units of government as provided under the Act, and;
WHEREAS, we estimate the tax revenue lost, which is estimated on the attached schedule would be a small fraction of the benefits the designation of a Renaissance Recovery Zone will bring the community, and;
WHEREAS, letters of support have been provided by our U.S. Congressman, State Senator, State Representative, and County EDC Director,
NOW, THEREFORE BE IT RESOLVED, that the City of Sturgis requests that the State of Michigan designate the Sturgis properties occupied by Mayer Tool and Engineering and Johnson Precision Mold as Renaissance Zones under Public Act 376 of 1966 for duration of up to 15 years.

The purposes for which the corporation is organized are:
To purchase residential, commercial, industrial and vacant real estate for development, rehabilitation, or use by the City of Sturgis; to sell said real estate for the betterment of the City of Sturgis; and to assist local property owners and agencies in the refurbishing of real estate, including low to moderate income housing.
All other provisions of Article II shall remain in full force and effect. The President of the Corporation is authorized to prepare, execute, and file whatever documents are necessary to effect said amendment.
3. The shareholders received a report from City Staff on significant developments, major corporate transactions, certain related party transactions, and the operations and financial results of the Corporation for the preceding fiscal year. All actions of the Corporation's officers, directors and agents on behalf of the Corporation since the last annual meeting of shareholders (or written consent in lieu of such a meeting) are ratified.

This consent is given in lieu of a formal annual meeting of the Corporation's shareholders.

Moved by Dir. Sisson and seconded by Dir. Littman to adopt the following Consent Resolution as presented.

CONSENT IN LIEU OF ANNUAL MEETING
OF BOARD OF DIRECTORS OF STURGIS HOUSING DEVELOPMENT CORP.

All of the members of the Board of Directors of Sturgis Housing Development Corp., a Michigan non-profit corporation (the "Corporation"), consent to the following actions:

1. The following persons are elected as officers of the Corporation to serve in the offices set forth opposite their names until further Board action or until their resignation or removal:

   Todd Campbell – President
   Michael Vance – Treasurer
   Todd Campbell – Secretary

2. The Preamble of the Bylaws is hereby amended to provide as follows:

Sturgis Housing Development Corp. (the “corporation”) has been incorporated by the City of Sturgis pursuant to Act 37 of 2001 (Section 117.4o of Michigan’s Home Rule City Act). Under the Act, the corporation may be organized only for purposes that are valid public purposes for cities in the state of Michigan. The corporation’s primary purpose is the development of residential, commercial, and industrial real estate, including development in accordance with guidelines and financial assistance provided by the Michigan State Housing Development Authority. The corporation’s secondary purposes include the acquisition of such real estate for development and for use by the City of Sturgis. The City of Sturgis has determined that such purposes are valid public and governmental purposes and that, for administrative reasons, it is useful to form the corporation to carry out the purposes. The City of Sturgis will be the sole owner of the corporation, and ultimate control and supervision of the corporation will vest with the City.

3. The directors received a report from City Staff on significant developments, major corporate transactions, and the operations and financial results of the Corporation for the preceding year, including the acquisition of real estate commonly known as the Ram Products building at 1111 N. Centerville Rd., Sturgis, Michigan, and the residential building at 401 S. Lakeview St., Sturgis, Michigan. All actions of the Corporation's officers and agents on behalf of the Corporation since the last annual meeting of the Board (or written consent in lieu of such a meeting) are ratified.

This consent is given in lieu of a formal annual meeting of the Corporation's Board of Directors and is executed on May 25, 2005.

Moved by Comm. Austermann and seconded by Comm. Brew to adopt the resolution related to Sidewalk Display and Use within the State Trunk Line Highway Right-of-Way as presented.

**RESOLUTION FOR SIDEWALK DISPLAY AND USE**
**WITHIN STATE TRUNK LINE HIGHWAY RIGHT-OF-WAY**

WHEREAS, on October 13, 2004, the Sturgis City Commission added Article V Sidewalk Display and Use to Chapter 18 of Part II of its Ordinances which provided as follows effective as of November 5, 2004:

**ARTICLE V: SIDEWALK DISPLAY AND USE**

**Sec. 18-181. Legislative Findings.**

The City of Sturgis has the authority pursuant to its ordinances to promote business activity by authorizing reasonable use of sidewalks in the Central Business District. This Ordinance is intended to promote the economic development and growth of businesses located in the Central Business District.

**Sec. 18-182. Use of Sidewalks.**

(a) On sidewalks adjacent to properties zoned B-C Central Business District under the Zoning Ordinances of the City, adjoining owners, lessees or occupants may use the sidewalks in accordance with the provisions of this Section for open air display of dry goods, sporting goods, tools, small equipment, flowers and similar merchandise, and for temporary seating and tables to the extent that such uses are accessory to the adjoining properties as defined by the Zoning Ordinance of the City of Sturgis, subject to the following restrictions:

1. Display or seating areas shall be limited as necessary to allow for a minimum (60) inches of unobstructed pedestrian walkway and shall not obstruct access to on-street parking or create a vision hazard.
2. Any service of beer, wine or alcohol shall be in conformity with the rules and regulations of the Michigan Liquor Control Commission.
3. All displays including signs, shelving and/or racks, chairs and tables shall be removed from the sidewalk when the adjoining retail operation is closed, or stored in a secured manner approved by the City Manager.
4. All areas shall be well maintained and cleaned regularly by the adjoining property owner, lessee or occupant.
5. No items may be placed in the area at street corners or alley/street corners created by extending the building lines to the traveled portion of the streets or alleys.
(b) All other use of the sidewalks for display or seating purposes is prohibited.

Sec. 18-183. Nature of Use.

The use of the sidewalks as provided in Section 18-182 shall be permissive and shall constitute no more than a license revocable at will by the City. The City may, if the use of the sidewalk in any way interferes with the use of the rights of way, require any or all items to be removed temporarily or permanently from the sidewalk areas. No use of the sidewalks under Section 18-182 shall in any way entitle an owner, lessee or occupant to any right, title or interest in and to the sidewalk or any right to continue the uses provided in Section 18-182.

Sec. 18-184. Severability.

Should any provisions of this ordinance or any part thereof be held unconstitutional or invalid, such holding shall not be construed as affecting the validity of any of the remaining provisions hereof or of any other provisions of the City Code.

Sec. 18-185. Repeal.

All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Sec. 18-186. Penalty.

Whoever violates any provision of this chapter shall, upon a finding of responsibility for a civil infraction, be fined the sum specified in any fine schedules compiled, from time to time, by the city and filed with the court or a city agency of competent jurisdiction.

A failure to pay any fine imposed by a court or city agency of competent jurisdiction within any specified time period or a second violation of the same ordinance within a ninety-day period shall be deemed a misdemeanor and, upon conviction thereof, shall be punishable by a fine of not more than Five Hundred and 00/100 ($500.00) Dollars, or imprisonment in the county jail for a period not to exceed ninety (90) days, or both; and

WHEREAS, Act No. 1 of the Public Acts of 2005, effective as of March 24, 2005, amended the Motor Vehicle Code by adding Section MCL 257.676a (“Act”), which authorizes the Michigan Transportation Department to issue a permit to a person, firm or corporation to conduct activities within the right-of-way of a state trunk line highway within the corporate limits of a city conditioned upon the municipality having jurisdiction over any such site passing a resolution authorizing the activities and agreeing to enforce compliance with any such permit; and

WHEREAS, the City Commission has determined that it is in the best interest of the City to promote the economic development and growth of businesses located within the Central Business District by adopting this resolution;

NOW, THEREFORE, BE IT RESOLVED that the City of Sturgis hereby authorizes the activities set forth above in its Sidewalk Display and Use Ordinance, supports the issuance of a permit for those activities by the State Transportation Department and agrees to reasonably enforce compliance with any such permit issued by the State Transportation Department.

Vice-Mayor Sisson opened the Public Hearing related to establishment of an Obsolete Property Rehabilitation District.

Moved by Comm. Fisher and seconded by Comm. Malone to adopt the resolution to establish an Obsolete Property Rehabilitation District for parcels “A”, “B”, “C” and “D” as presented.

WHEREAS, Public Act 146 of 2000 provides an exemption from ad valorem property taxes to commercial property and commercial housing property provided they are located in a qualified local governmental unit and certain other conditions are met, and
WHEREAS, the City of Sturgis, County of St. Joseph, State of Michigan, has been declared a qualified governmental unit under PA 146 of 2000, and
WHEREAS, the City of Sturgis has determined that the area of the proposed district is qualified under the Obsolete Property Rehabilitation Act, and
WHEREAS, a hearing was held by the Sturgis City Commission providing the Assessor, and representatives of all affected taxing units the opportunity to be heard as required by the statute, and
WHEREAS, comments on creating the Obsolete Property Rehabilitation District have been heard and considered, and
WHEREAS, it is hereby found and determined by the Sturgis City Commission that the creating of this Obsolete Property Rehabilitation Act District, shall not have the effect of substantially impeding the operation of the City of Sturgis, or of impairing the financial soundness of a taxing unit which levies an ad valorem property tax in the City of Sturgis.

NOW, THEREFORE BE IT RESOLVED, that the Sturgis City Commission does hereby create an “Obsolete Property Rehabilitation Act District” on the parcel’s known as A, B, C, and D and described on Exhibit A (attached).

City Manager Michael Hughes presented the idea of adding irrigation to the U.S. 12 Downtown Streetscape project. The City Commission inquired about the costs, maintenance, and who would be paying for the additional costs. Mr. Hughes explained that the final decision did not need to be made at this time, but could wait until after bids and a payment structure was determined.

By Consensus, the City Commission agreed to have City staff add the irrigation to the scope of work and bring back the final costs to the City Commission.
Assistant City Manager Todd Campbell presented the proposed plan for an additional two islands to the east of the downtown area on U.S. 12. The City Commissioners expressed concerns with the potential costs, maintenance, access to business, and safety around these additional islands. Ted Modert, owner of Barnell’s Carpet, expressed his concerns regarding the downtown islands and people’s ability to access businesses. Mayor Haas felt that the additional aesthetic value and increase in the quality of life would outweigh the potential inconvenience of the additional islands.

Moved by Comm. Malone and seconded by Comm. Fisher to eliminate the additional two islands east of downtown from the U.S. 12 project

Moved by Comm. Austermann and seconded by Comm. Fisher to adopt the Street Repair Fund Resolution as presented.

RESOLUTION ESTABLISHING A STREET REPAIR FUND AND DEDICATING AN AMOUNT ANNUALLY EQUAL TO ONE MILL OF CITY PROPERTY TAX REVENUE

WHEREAS, the City of Sturgis is responsible for maintenance of the streets within the city limits, and
WHEREAS, the City believes the condition of its streets requires an amount of expenditure that is in excess of those funds provided to the City by the State of Michigan through Act 51 Gas and Weight Tax Revenue for street maintenance; and
WHEREAS, the City believes that the most financially practical approach to address this problem is to allocate additional revenue annually to ensure a long term solution to bring the streets up to an acceptable condition, and
WHEREAS, the City Commission wishes to make a specific allocation from the General Fund to provide funding for street repair.

The Sturgis City Commission hereby resolves:
1. The Street Repair Fund (Fund 201) is hereby established; and
2. The City of Sturgis City Commission shall provide funding on an annual basis from the General Fund; and
3. The amount of funding provided annually shall be in an amount equal to One (1) Mill based on the taxable value of the city of Sturgis as established by the City Assessor at March 31st; and
4. That no money shall be transferred from the Street Repair Fund or used for any other purpose other than street repair; and
5. That the Street Repair Fund will be established as part of the 2005-2006 City of Sturgis fiscal year budget.

Moved by Comm. Fisher and seconded by Comm. Brew to approve the Resolution of Intent to form a District Library as presented.

RESOLUTION OF INTENT TO FORM A DISTRICT LIBRARY
WHEREAS, the City of Sturgis has provided library services through the Sturgis Public Library since 1908; and
WHEREAS, since 2001 state revenue sharing to the City of Sturgis has declined dramatically, with an approximate $211,000 loss; and
WHEREAS, the strain on the City’s financial resources, due to the loss of this revenue and the ever increasing cost of all services, has required the City Commission to re-evaluate the services that the City has provided historically; and
WHEREAS, the City is no longer able to solely maintain the costs of a District IV library, which is required when serving a population larger than the City of Sturgis.

The Sturgis City Commission hereby resolves:
1. That it is interested in joining with the Townships of Sturgis, Sherman, Florence, and Fawn River to establish a District Library pursuant to 1989 PA 24; and
2. That it will appoint two representatives from the City to the District Library Planning Committee, to serve along with other interested parties, which will be charged with preparing a District Library financial plan and District Library Agreement; and
3. That upon completion of an acceptable District Library Agreement, the City Commission will adopt a resolution to establish a District Library and sign the Agreement; and
4. That the millage vote for the Sturgis District Library will take place on May 2, 2006; and

The Sturgis City Commission further resolves:
1. That prior to changing the level of service provided by the Library, an opportunity should be offered to Township residents to support a District Library; and
2. That in the event that the millage vote does not pass, or the Townships of Sturgis, Sherman, Florence and Fawn River do not resolve, by November 1, 2005, to join the City of Sturgis in an attempt to form a District Library, the Sturgis Public Library would convert to a Class III library and only be available free of charge to the residents of the City of Sturgis.

EDC Director John Hayes provided details of the Obsolete Property Rehabilitation Act on
Bucephalus’ business and the upcoming project.
Mary Loudenslager, owner of Bucephalus of Sturgis, LLC, explained that their ability to obtain a loan from the bank was dependent on the anticipated award of an OPRA Exemption Certificate.

Moved by Comm. Austermann and seconded by Comm. Sisson to adopt the resolution awarding an Obsolete Property Rehabilitation Exemption Certificate to Bucephalus of Sturgis, LLC, for a period of twelve (12) years, beginning on January 1, 2006 and an ending date of December 31, 2017.

WHEREAS, the City of Sturgis is a Qualified Local Governmental Unit, and
WHEREAS, the Obsolete Property Rehabilitation District was legally established on July 13, 2005 after a public hearing on the same day as provided by section 3 of P.A. 146 of 2000; and
WHEREAS, the taxable value of the property proposed to be exempt plus the aggregate taxable value of property already exempt under P.A. 146 of 2000 and under P.A. 198 of 1974 (IFT's) exceeds 5% of the total taxable value of the unit; and
WHEREAS, that exceeding 5% will not have the effect of substantially impeding the operation of the City of Sturgis Unit or of impairing the financial soundness of an affected taxing unit; and
WHEREAS, the application was approved at a public hearing as provided by section 4(2) of P.A. 146 of 2000 on October 12, 2005; and
WHEREAS, Bucephalus of Sturgis, LLC is not delinquent in any taxes related to the facility; and
WHEREAS, the application is for obsolete property as defined in section 2(h) of Public Act 146 of 2000; and
WHEREAS, Bucephalus of Sturgis, LLC is authorized by the City of Sturgis for completion of the rehabilitation through March 31, 2006; and
WHEREAS, the items described on line 9 under "Instructions"(a) through (f) of the Application for Obsolete Property Rehabilitation Exemption Certificate have been provided to the City of Sturgis by Bucephalus of Sturgis, LLC; and
WHEREAS, the commencement of the rehabilitation of the facility did not occur before the establishment of the Obsolete Property Rehabilitation District; and
WHEREAS, the application relates to a rehabilitation program that when completed constitutes a rehabilitated facility within the meaning of P.A. 146 of 2000 and that is situated within an Obsolete Property Rehabilitation District established in a Qualified Local Governmental Unit eligible under P.A. 146 of 2000 to establish such a district; and
WHEREAS, that completion of the rehabilitated facility is calculated to, and will at the time of issuance of the certificate, have the reasonable likelihood to create employment; and
WHEREAS, the rehabilitation includes improvements aggregating 10% or more of the true cash value of the property at commencement of the rehabilitation as provided by section 2(l) of P.A. 146 of 2000.

NOW, THEREFORE BE IT RESOLVED, that the Sturgis City Commission does hereby approve the application of Bucephalus of Sturgis, LLC for an “Obsolete Property Rehabilitation Exemption Certificate”.

City Manager Michael Hughes provided a history of events surrounding the 2006 U.S. 12 Reconstruction Project. He provided information regarding the uses of traffic islands and presented a number of examples. He presented the drawings of the current plans for the traffic islands.

Moved by Comm. Fisher and seconded by Comm. Malone to eliminate the traffic island from Jean to Michigan in the plans for the U.S. 12 Reconstruction Project.

Comm. Haas asked why the Commission would review this issue after it was recently decided upon. Comm. Fisher explained that the nearby residents are not in favor of the island and that the City would be responsible for the maintenance. Comm. Haas explained that all this information was available at the time that this issue was discussed and decided upon.

Steven Shevick, 302 S. Lakeview, explained that the islands are a bad idea and suggested a bypass. Jeff Brazo, Burr Oak Township resident, explained that his understanding is that the City will make the final decision regarding the islands. Tom McLauglin, downtown business owner, felt that islands are not needed but wants more security and high speed internet downtown. Chuck Baber, downtown business owner, explained that he was in favor of the islands because of the aesthetic value and safety concerns. John Davis of Central Florist is in favor of the islands because of the aesthetic value and safety concerns. Dena Schlack, 606 E. Chicago, explained that although she was in favor of downtown islands, she was not in favor of the island between Jean and Michigan. Todd Maynard, 1128 Constitution and owner of Willer’s Shoes, explained that he was in favor of the downtown islands because they will slow the traffic, make it safer, and make it more conducive to living downtown. Dr. Wilbur Kotcher, 206 Michigan, explained that other areas use the U-Turn and they are not used in Sturgis and felt that the islands may give a false sense of safety. Ed Birch, 500 Liberty, had concerns about the reduction of lanes and potential snow removal. City Manager Michael Hughes explained some of the options related to snow removal. Jim Moshier, 207 Michigan, explained that in his travels through southwest Michigan he has not seen the use of traffic islands. Cindy Conrod, owner of TC Appliance, inquired about the costs of irrigation and explained that a survey she presented showed many people not in support of the islands. Frank Krantz, owner of a Sturgis real estate office, explained that the pictures he viewed do not show islands with only one lane of traffic in each direction and questioned the loss of parking spots near
the post office. Don Lampe, 28501 Fawn River Road and DDA Board Member, explained that the traffic downtown needs to be slowed and felt that the islands may accomplish this. Ken Gearhardt, 1504 Griffith, thanked individuals for their assistance in his formation of drawings and explanation of the plan and supported the downtown islands but not the one between Jean and Michigan. Patty Jernagan, Chicago Road resident, is against the Jean and Michigan island and is in support of the beautification downtown but was concerned about the island near Pleasant Street. City Manager Michael Hughes explained that there will be a left hand turn lane at Nottawa Street. Gary Bowersox, 601 N. Fourth, explained that he has not observed a police presence downtown. Dennis Baker, 10305 Carls Road, was concerned about the large trailers going through town and suggested a small island and a crosswalk at Pleasant Street. Brian Tallmadge, 121 S. Nottawa, explained that he was originally against the islands but has become in favor because of the enhancements for downtown. Carl Probst, Sherman Township resident, inquired as to the possibilities of a bypass for M-66 and U.S. 12. City Manager Michael Hughes explained that the City continues to work on an M-66 bypass. Frank Ianarrelli, president of the Sturgis DDA, provided his comments regarding the benefits of the downtown islands. Ted Modert, owner of Barnells Carpets, questioned the aesthetics. John Brubaker, 600 Buckingham, talked about a bypass. Ina Taulbe, 511 W. Congress, asked about the boundaries of the downtown district. DDA Director Kim Musolff explained that the downtown district extends to Centerville Road. Jane Beamish, 107 W. Chicago, was concerned about the effect of the downtown from the islands. Jim Brown, owner of Brown’s, questioned who will pay to remove the islands if necessary.

Comm. Haas explained that the same positive attributes for the downtown islands are translated to the island between Jean and Michigan. Comm. Littman explained that he was not present at the time of the previous discussion and looked at the removal of this island as a compromise. Comm. Haas explained that the previous discussion included the compromise of removing an additional island east of Lakeview. Comm. Fisher explained that the costs of this island were not fully outlined previously and questioned the City’s portion of the cost.

The City Clerk reread the current motion:
Moved by Comm. Fisher and seconded by Comm. Malone to eliminate the island from Jean to Michigan in the plans for the U.S. 12 Reconstruction Project.

Assistant City Manager Todd Campbell explained the history and purpose of the proposed Internal Loan Policy for the City.

Moved by Comm. Littman and seconded by Comm. Richards to approve the Internal Loan Policy as presented.

It shall be the policy of the City of Sturgis, that whenever approved by the City Commission, funds may be transferred (loaned) from one fund to another for a specific public purpose. The interest rate for internal loans will be the most recent Statutory Judgment rate as established by the State of Michigan (rate is adjusted semi-annually). The City Commission will ensure that an adequate fund balance is maintained in the lending fund. In addition, loans will not exceed the expected life of the capital improvement, project, etc. The proposed borrowing shall be presented in the form of a resolution to the City of Sturgis Commission or approved during the annual budget process. The resolution shall contain the following information:

- Purpose of the lending
- Amount to be loaned
- Fund(s) making the loan
- Fund(s) receiving the loan
- Rate of Interest to be paid
- Loan repayment terms (including start date)

17
WHEREAS, the City of Sturgis by membership in the Committee will receive information and documents related to power supply offers which contain specific pricing or other confidential or proprietary information, which the City of Sturgis, Association, and Committee desire to keep confidential and exempt from any public disclosure requirements;

NOW THEREFORE, BE IT RESOLVED THAT:

1. The City of Sturgis finds and determines that pursuant to 2000 PA 141 [Section 10y(12)], it is in its best interest to keep and maintain all contracts, records and reports received and to be received, in connection with the acquisition of electric power by the City of Sturgis through its membership in the Committee confidential, as such information pertains to the sale of electricity and contains specific pricing or other confidential or proprietary information which the City of Sturgis, Association, and Committee, desire to keep confidential and exempt from any public disclosure requirements.

2. The City of Sturgis and employees of the City of Sturgis shall keep such information confidential, unless required by law and otherwise directed by a court of competent jurisdiction.

3. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution hereby are rescinded.

EXPLANATION OF PROPOSED BUDGET ADJUSTMENTS:

Since the passage of the 2005-2006 city budget, the State of Michigan has reaffirmed its estimates of revenue it distributes to units of government as state shared revenue. The city chose to be conservative and used a figure of around 90% of what was being estimated at the time the budget was passed. At this point the estimates are more certain compared to June or July of 2005. For that reason, I believe it is reasonable to increase the revenue sharing estimate to the updated figure, thus offsetting the additional costs detailed below.

Since the passage of the 2005-2006 City Budget, the City received the annual actuarial update for the Sturgis retirement System. Typically, the contribution rates have been growing annually, but in small increments. The last study completed, as of the end of December 2004, reflects contribution increases that are larger than we’ve historically experienced. The actuaries have suggested that the normal pattern is for the contribution rates to rise over time to the level of what is normal for the age and makeup of the retirement system. Although the majority of the departments will be affected minimally, the Police and Fire Departments will be affected to a larger extent because of the large numbers of personnel in those operations coupled with their age and lower retirement requirements. Those two departments will experience an additional $45,000 in retirement contributions as a minimum, based on their budgeted officers and firefighters. The other department that will be affected in significant way is the Ambulance operation. Paramedics and EMTs are classified the same as firefighters for retirement purposes, as they are part of the Fire Collective Bargaining Agreement. At the same time they do not fall under the exemption that allowed the city to opt out of FICA contributions for police and fire, therefore their retirement factor is the same as firefighters and that creates a considerably higher contribution rate then was originally anticipated in the budget. The additional contribution cost for those personnel is estimated at $13,500.

The other situation being corrected through this budget amendment relates to the Americraft Urban Capital Assembly project that was approved last fiscal year by the City Commission. When the project was approved, the city was under the impression that Americraft would begin planning, design and construction immediately and therefore Tax Capture on the development could begin with this tax year. The resulting captured tax funds would provide the necessary monies to meet the repayment requirements of the loan agreement the city signed with the State of Michigan, to obtain the seed money to fund the purchase of property for the Americraft expansion. The project time table has been delayed to the extent that the city was required to start the repayment of the loan prior to the capture of taxes occurring. It is anticipated that the General Fund will make the monthly payments and be reimbursed when the tax capture begins.

The final item being addressed by this budget amendment is to provide additional funding for street repairs during this fiscal year. The street repair monies set aside in the estimated 9/30/2005 budget to do repair
work in the last fiscal year were not expended by the end of that fiscal year. Those monies reverted to the fund balances of the Major and Local Street Funds and are available for appropriation in the 2005-2006 Budget year. This will allow us to complete the amount of street work originally planned for last and current fiscal years.

Moved by Comm. Stephens and seconded by Comm. Malone to authorize the budget amendments for Fiscal Year 2005-06 as presented.

City Manager Michael Hughes provided information to the Commission regarding comments made during a recent public hearing for the U.S. 12 reconstruction project related to subjects such as island removal, a five versus three lane configuration, a dedicated turning light at Nottawa, and an M-66 bypass. City staff will be seeking written confirmation from MDOT regarding many of these issues.

IMMDA will be having a general membership meeting on January 11, 2006 in Mishawaka, IN at 11:00 am.

Moved by Comm. Malone and seconded by Comm. Littman to adjourn the meeting.
