**DISCUSSION**

The Boiler that services the mechanics bay of the Public Works facility has failed and the unit needs to be replaced due to parts not being available to repair the unit. This unit is the original Public Works Boiler and is over 20 years old. Staff received quotes for the boiler and the labor to install it from local vendors. Below is a summary of the quotes.

Conner Company Boiler Quote	\$4,000.00
Conner Company Pumps & Misc Fittings	\$2,250.00
Ross Mechanical Inc. Installation	\$3,100.00

**COST**

The cost to replace the Boiler at Public Works is estimated at \$9,350.00 This replacement is unbudgeted and the funds would be split 50/50 between 50-59-6406 and 01-54-6406 Repair & Maintenance Services-Buildings.

**RECOMMENDATION**

The Village Board discuss the Boiler replacement and direct staff on how to proceed.
