

SYCAMORE TOWNSHIP  
PLANNING & ZONING  
OCT 25 2013  
RECEIVED

Sycamore Township Zoning Dept

My husband Douglas and I  
are requesting a variance  
be granted for the garage  
we constructed in our  
back yard.

We purchased the garage  
package from Menards,  
and when the standard  
cutters was placed on the  
10' walls, the total height  
was 13' 4". The building is  
the color matching the main  
building and is not taller  
than the building that  
exists. It will be used  
strictly for personal use  
and will not increase traffic.  
Actually, we will no longer  
have to park vehicles on the  
street.

Neighbors have seen and  
approved of the structure.

(2)

Therefore we would appreciate the variance in height be approved.
